

# Knowledge Incubation for TEQIP

## Indian Institute of Technology Kanpur

**Subject: Winter internship program 2016 at IIT Kanpur sponsored by KIT, IIT Kanpur**

Dear Sir/Madam,

Knowledge Incubation for TEQIP, IIT Kanpur is pleased to announce **Winter Internship program 2016**. This program is for PG students of all TEQIP colleges under KIT, IIT Kanpur quality circle. This is a step towards encouraging research collaborations and student exchange with the colleges in Quality Circle assigned to IIT Kanpur. Under this program **students will be selected for internship program** for a period of **6 Weeks (November 20, 2016 to January 01, 2017)**. **Last date to apply is November 01, 2016**.

The Winter Internship Program is offered in all department of the institute.

Please find below the details on application and selection process for this program:

### **Students:**

**This program is only for post graduate student (MSc., Masters and PhD). They can apply in any department of their interest at IIT Kanpur.**

### **How to apply:**

All student applicants have to apply by sending us the following documents:

1. Letter of recommendation from the TEQIP coordinator of their institute.
2. Detailed CV with their CGPA/CPI
3. Application letter mentioning what department and faculty they prefer and their area of interest.

Please email all the above documents to [teqip.iitk@gmail.com](mailto:teqip.iitk@gmail.com). Applicants are requested to send emails with subject: **KIT Winter Internship 2016**. The TEQIP office will process their application for the winter internship and inform them if selected. **Please send your application latest by November 01, 2016.**

### **What KIT will offer students:**

Please note that KIT, IITK will take care of the following:

1. Lodging and boarding at student hostel (based on the availability) for the period of stay.
2. Reimbursement of travel expenses.

The Winter Internship and Visiting Researcher program is a step towards encouraging collaborations of researchers and students. Through this program, TEQIP aims to create opportunities for students of QC institutes to learn new ideas and gain new interests in their field. This can also help in laying strong foundation of a very productive academic culture which can be beneficial for all.

Best regards,  
TEQIP Team, IIT Kanpur
